

## HOUSE OF REPRESENTATIVES STAFF ANALYSIS

**BILL #:** CS/HB 293 Hurricane Protections for Homeowners' Associations  
**SPONSOR(S):** Regulatory Reform & Economic Development Subcommittee, Sirois  
**TIED BILLS:** **IDEN./SIM. BILLS:** SB 600

REFERENCE	ACTION	ANALYST	STAFF DIRECTOR or BUDGET/POLICY CHIEF
1) Regulatory Reform & Economic Development Subcommittee	13 Y, 0 N, As CS	Larkin	Anstead
2) Civil Justice Subcommittee	18 Y, 0 N	Yeager	Jones
3) Commerce Committee			

### SUMMARY ANALYSIS

A homeowners' association (HOA) is an association of residential property owners in which voting membership is made up of parcel owners and membership is a mandatory condition of parcel ownership. HOAs may impose assessments that, if unpaid, may become a lien on the parcel. HOAs may levy fines against or suspend certain access rights of a parcel owner for failing to comply with the HOA's governing documents.

If the HOA's governing documents allow, an HOA or its architectural, construction improvement, or other similar committee (ARC) may:

- Require a review and approval of plans and specifications for the location, size, type, or appearance of any structure or other improvement on a parcel before a parcel owner makes such improvement.
- Enforce standards for the external appearance of any structure or improvement located on a parcel.

Hurricane hardening involves improvements to a home or other structure to make it less susceptible to damage from extreme wind, flooding, or flying debris. Hardening improves the durability and stability of a structure, making it better able to withstand the impacts of hurricanes without sustaining major damage.

The bill:

- Requires an HOA or ARC to adopt **hurricane protection** specifications for each structure or other improvement on a parcel governed by the HOA. The specifications may include the color and style of hurricane protection products and must comply with the applicable building code.
- Prohibits an HOA or ARC from denying an application for installation, enhancement, or replacement of hurricane protection by a parcel owner which conforms to specifications adopted by the HOA or ARC.
- Allows the HOA or ARC to require a parcel owner to adhere to an existing unified building scheme regarding the external appearance of the structure or other improvement on the parcel.
- Provides that "hurricane protection" includes, but is not limited to:
  - Metal roofs,
  - Permanent fixed or roll-down track storm shutters,
  - Impact-resistant windows and doors,
  - Polycarbonate panels,
  - Reinforced garage doors,
  - Erosion controls,
  - Exterior fixed generators, and
  - Fuel storage tanks.

The bill provides that in order to protect the health, safety, and welfare of the people of the state and to ensure uniformity and consistency in the hurricane protection installed by parcel owners, the bill applies to all HOAs in the state, regardless of when the community was created. The bill does not appear to have a fiscal impact on state or local governments and is effective upon becoming law.

# FULL ANALYSIS

## I. SUBSTANTIVE ANALYSIS

### A. EFFECT OF PROPOSED CHANGES:

#### Current Situation

##### **Homeowners' Associations**

A homeowners' association (HOA) is an association of residential property owners in which voting membership is made up of parcel owners and membership is a mandatory condition of parcel ownership. HOAs are authorized to impose assessments that, if unpaid, may become a lien on the parcel.<sup>1</sup>

Only HOAs whose covenants and restrictions include mandatory assessments are regulated by ch. 720, F.S., the Homeowners' Association Act (HOA Act). Like a condominium, an HOA is administered by an elected board of directors (board). The powers and duties of an HOA include the powers and duties provided in the HOA Act, and in the association's governing documents, which include the recorded covenants and restrictions, together with the bylaws, articles of incorporation, and duly adopted amendments to those documents.<sup>2</sup>

An HOA must be a Florida corporation and the initial governing documents must be recorded in the official records of the county in which the community is located. The powers and duties of an association include those set forth in the HOA Act and in the governing documents, except as expressly limited or restricted in the HOA Act.

No state agency has direct oversight over HOAs. However, Florida law provides for a limited mandatory binding arbitration program, administered by the Division of Condominiums, Timeshares and Mobile Homes, within the Department of Business and Professional Regulation, for certain election and recall disputes.<sup>3</sup>

##### **HOA Architectural and Construction Improvement Covenants and Rules**

If the governing documents allow, an HOA or its architectural, construction improvement, or other similar committee (ARC) may:<sup>4</sup>

- Require a review and approval of plans and specifications for the location, size, type, or appearance of any structure or other improvement on a parcel before a parcel owner makes such improvement.
- Enforce standards for the external appearance of any structure or improvement located on a parcel.

The HOA or ARC may not restrict the right of a parcel owner to select from any options given in the governing documents for the use of material, the size of the structure or improvement, the design of the structure or improvement, or the location of the structure or improvement on the parcel.<sup>5</sup>

Each parcel owner is entitled to the rights and privileges set forth in the governing documents concerning the architectural use of the parcel, and the construction of permitted structures and improvements on the parcel and such rights and privileges may not be unreasonably infringed upon or impaired by the HOA or ARC. If the an HOA or ARC unreasonably, knowingly, and willfully infringes

<sup>1</sup> S. 720.301(9), F.S.

<sup>2</sup> See generally ch. 720, F.S.

<sup>3</sup> S. 720.311, F.S.

<sup>4</sup> S. 720.3035(1), F.S.

<sup>5</sup> S. 720.3035(2), F.S.

upon or impairs such rights and privileges, the adversely affected parcel owner may recover damages, including any costs and reasonable attorney fees.<sup>6</sup>

An HOA or ARC may not enforce any policy or restriction that is inconsistent with the rights and privileges of a parcel owner set forth in the governing documents, whether uniformly applied or not.<sup>7</sup>

### **Levying Fines**

Owners, tenants, and guests must comply with an HOA's governing documents, including those related to architectural or construction improvements. HOAs may levy fines against or suspend the right of a parcel owner, tenant, or guest of an owner or occupant, to use the common areas<sup>8</sup> or any other association property for failing to comply with any provision in the HOA's governing documents.<sup>9</sup>

No fine may exceed \$100 per violation, although a fine may be levied on the basis of each day of a continuing violation provided that fine does not exceed \$1,000 in the aggregate. However, a fine may exceed \$1,000 if the HOA's governing documents authorize it. A fine may not become a lien on the property unless it exceeds \$1,000.<sup>10</sup>

### **Hurricane Hardening**

Generally, hurricane hardening involves improvements to a building structure and its openings to make it less susceptible to damage from extreme wind, flooding, or flying debris. Hardening improves the durability and stability of a structure, making it better able to withstand the impacts of hurricanes and weather events without sustaining major damage.<sup>11</sup>

Hurricane hardening includes installing hurricane impact-rated doors, windows with impact-resistant glass, reinforced roof and wall structures that meet or exceed high-velocity impact codes, independent emergency power systems, potable water storage, fuel stores, and other supplies and systems that will sustain those within the building for a certain time period after a storm.<sup>12</sup>

Most hurricane hardening must be installed in compliance with applicable codes, including the Florida Building Code, and by a licensed construction contractor.<sup>13</sup>

### **Condominium Hurricane Protection Specifications**

Each residential condominium must adopt hurricane shutter specifications for each building of the condominium, which must include color, style, and other factors deemed relevant by the condominium. All such specifications must comply with the applicable building code.<sup>14</sup> A condominium is not required to adopt other hurricane protection specifications.

A condominium may not refuse to approve the installation or replacement of hurricane shutters, impact glass, code-compliant windows or doors, or other types of code-compliant hurricane protection by a condominium unit owner conforming to the condominium's specifications.<sup>15</sup>

## **Effect of the Bill**

The bill requires an HOA or any ARC to adopt **hurricane protection** specifications for each structure or other improvement on a parcel governed by the HOA. The specifications may include the color and style of hurricane protection products and any other factor deemed relevant by the board. All specifications adopted by the HOA must comply with the applicable building code.

The bill allows the HOA or ARC to require a parcel owner to adhere to an existing unified building scheme regarding the external appearance of the structure or other improvement on the parcel.

The bill provides that, regardless of any other provision in the HOA's governing documents, the HOA or ARC may not deny an application for the installation, enhancement, or replacement of hurricane protection by a parcel owner which conforms to the specifications adopted by the HOA or ARC.

The bill provides that "hurricane protection" includes, but is not limited to:

- Metal roofs,
- Permanent fixed storm shutters,
- Roll-down track storm shutters,
- Impact-resistant windows and doors,
- Polycarbonate panels,
- Reinforced garage doors,
- Erosion controls,
- Exterior fixed generators,
- Fuel storage tanks, and
- Other hurricane protection products used to preserve and protect the structures or improvements on a parcel governed by the HOA.

The bill provides that in order to protect the health, safety, and welfare of the people of the state and to ensure uniformity and consistency in the hurricane protection installed by parcel owners, the bill applies to all HOAs in the state, regardless of when the community was created.

The bill is effective upon becoming a law.

### **B. SECTION DIRECTORY:**

Section 1: Amends s. 720.3035, F.S.; requiring HOAs to provide certain guidance and allow certain improvements related to hurricane protection.

Section 2: Provides an effective date.

## **II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT**

### **A. FISCAL IMPACT ON STATE GOVERNMENT:**

#### **1. Revenues:**

None.

#### **2. Expenditures:**

None.

### **B. FISCAL IMPACT ON LOCAL GOVERNMENTS:**

#### **1. Revenues:**

None.

2. Expenditures:

None.

C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

The bill may allow more HOA parcel owners to harden their homes to withstand a storm, which could increase construction in the state and reduce effects of a storm on residences.

D. FISCAL COMMENTS:

None.

### III. COMMENTS

A. CONSTITUTIONAL ISSUES:

1. Applicability of Municipality/County Mandates Provision:

Not applicable. This bill does not appear to require counties or municipalities to spend funds or take action requiring the expenditures of funds; reduce the authority that counties or municipalities have to raise revenues in the aggregate; or reduce the percentage of state tax shared with counties or municipalities.

2. Other:

None.

B. RULE-MAKING AUTHORITY:

None.

C. DRAFTING ISSUES OR OTHER COMMENTS:

None.

### IV. AMENDMENTS/COMMITTEE SUBSTITUTE CHANGES

On January 17, 2024, the Regulatory Reform & Economic Development Subcommittee adopted an amendment and reported the bill favorably as a committee substitute. The committee substitute adds exterior fixed generators and fuel storage tanks to the list of items for which an HOA must adopt specifications for acceptable use or installation by parcel owners.

This analysis is drafted to the committee substitute as passed by the Regulatory Reform & Economic Development Subcommittee.
